Interactive Window Surprise: From Cozy Treats to Winter Woodland

An Altenew Educator Certification Program (AECP) Workshop

Nothing says winter warmth like hot cocoa, fresh treats, and a surprise view! In this hands-on class, the spotlight is on interactive mechanics: using precise scoring to craft an engaging peek-through window that transitions from cozy comfort to a peaceful woodland hideaway. Come learn the step-by-step scoring tricks, structural layering, and finishing touches to make your cards an unforgettable experience for the recipient.

WORKSHOP DETAILS

- Date: November 21st, 2026
- Time: 2:00 PM ET
- Location: Virtual Meeting Room (Link will be provided on email)
- Theme: Crafting an interactive winter reveal card using simple scoring techniques, dimensional cozy treat layering, and a peek-through arched window woodland scene.

WHAT WE WILL LEARN

- **Interactive Structural Mechanics:** How to place simple score lines to build a durable, smooth lift-up flap without warping the base card.
- **Seamless Window Integration:** Alignment tips for nesting die cuts (arched apertures) so the outer elements frame the inner scene perfectly.
- **Layering & Depth Strategy:** Techniques for balancing heavy focal elements (stacked die-cut mugs, treats, and foliage) on a moving flap without weighing down the mechanism.
- **Mixed-Texture Contrast:** Combining soft background ink blending with crisp silhouette die cutting and glitter cardstock accents to create atmospheric dimension.

SPECIAL REGISTRATION OFFER :

Register between **Nov 1st - 15th** to receive a **20% discount code** for the supplies needed for this workshop!

CODE : AECPRPW9 - This code applies to a one-time purchase, no minimum purchase required, active until from **Nov 1st - 15th**
